THE FARMER'S OFFICE LICENSE AGREEMENT

Davidian Business Services, Inc., DBA DATATECH, 5150 N. Sixth St, Suite 125, Fresno, California, agrees to grant and the party which executes this License as Licensee agrees to accept this License under the following terms and conditions:

1. TERM

This agreement is effective from the date of receipt by the Licensee of THE FARMER'S OFFICE software, hereinafter referred to as Licensed Program, and shall remain in force until terminated by the Licensee. DATATECH may terminate this License Agreement upon written notice to the Licensee if the Licensee fails to comply with any of the terms and conditions of this Agreement, in which case the Licensee will furnish DATATECH a certificate verifying that through his best effort, and to the best of his knowledge, the original and all copies, in whole or in part, in any form, including partial copies or modifications of the Licensed Program received from DATATECH, or made in connection with such License have been destroyed.

2. LICENSE

DATATECH grants a nonexclusive, nontransferable license to Licensee to use Licensed Program on one computer system. The primary user of the computer on which Licensed Program is installed may make a second copy for his or her exclusive use on a portable computer. A separate License is required for any other computer systems on which the Licensed Program will be used.

Storage/Network License: You may also store or install a copy of the Licensed Program on a storage device, such as a network server, used only to install or run the Licensed Program on your other computers over an internal network; however, you must acquire and dedicate a license for each separate computer on which the Licensed Program is installed or run from the storage device. A license for the Licensed Program may not be shared or used concurrently on different computers.

This Agreement and any of the licenses, programs or materials to which it applies may not be assigned, sublicensed or otherwise transferred by the Licensee without prior written consent from DATATECH. No right to print or copy, in whole or in part, the Licensed Program is granted except as hereinafter expressly provided.

3. LIMITED PERMISSION TO COPY LICENSED PROGRAMS

DATATECH grants to Licensee permission to make copies of the licensed Program for use on Licensee's single user computer system or for backup or archival purposes. Such copies must remain in the possession of Licensee.

No part of the Program Documentation may be reproduced, stored in a retrieval system, if transmitted, in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without the express written consent of DATATECH.

The Licensee agrees not to provide or otherwise make available any Licensed Program to any person without the prior written consent of DATATECH. The discovery of a copy of any licensed programs with the Licensee's serial number in the possession of a party other than the licensee will automatically terminate this license agreement.

4. COPYRIGHT

All title and copyrights in and to the Licensed Program (including but not limited to any images, animations, video, audio, and text incorporated into the Licensed Program), the accompanying printed materials, and any copies of the Licensed Program are owned by DATATECH or its suppliers. The Licensed Program is protected by copyright laws and international treaty provisions. Therefore, you must treat the Licensed Program like any other copyrighted material except that you may make copies as licensed in sections (2) and (3). You may not copy the printed materials accompanying the Licensed Program.

5. LIMITED WARRANTY

DATATECH warrants that the media on which the Licensed Program is recorded will be replaced without charge, if media is defective, within 30 days of purchase. In addition, Licensee may return Licensed Program within 45 days for a full refund of the purchase price if it is not suitable for Licensee's needs.

DATATECH warrants that the Licensed Program will perform substantially in accordance with the accompanying written documentation (i.e. program manuals) or electronic documentation (i.e. on-line help files) for a period of one year from the date of receipt. DATATECH also warrants that any Support Services provided by DATATECH shall be substantially as described in applicable written materials provided to you by DATATECH, and DATATECH support personnel will make commercially reasonable efforts to solve and problem issues. Some states and jurisdictions do not allow limitations on duration of an implied warranty, so the above limitation may not apply to you. To the extent allowed by applicable law, implied warranties on the Licensed Program, if any, are limited to ninety (90) days.

DATATECH makes no other warranty, either expressed or implied, including without limitation, any warranty of merchantability of fitness for purpose. DATATECH shall not be liable for direct, indirect, special or consequential damages such as loss of profits, business interruption, loss of business information, loss of savings, or any other pecuniary loss, arising out of the use of or inability to use the Licensed Program or the provision of or failure to provide support services, even if DATATECH has been advised of the possibility of such damages.

CUSTOMER REMEDIES. DATATECH's entire liability and your exclusive remedy shall be, at DATATECH's option, either (a) return of the price paid, if any, or (b) repair or replacement of the Licensed Program that does not meet DATATECH's Limited Warranty and which is

returned to DATATECH (with proof of purchase if Licensed Program was purchased through a dealer). This Limited Warranty is void if failure of the Licensed Program has resulted from accident, abuse, or misapplication. Any replacement Licensed Program will be warranted for the remainder of the original warranty period or forty-five (45) days, whichever is longer.

DATATECH and Licensee agree that this product is intended for commercial use only and is not intended as "consumer goods" under State or Federal warranty laws.

6. UPDATE POLICY

From time to time DATATECH may make updates to the Licensed Program. DATATECH will make available to Licensee any software updates completed within ninety (90) days of this Agreement. All updates provided shall be deemed to be a part of the original Licensed Program and subject to this License Agreement.

7. CUSTOMER SUPPORT SERVICES

If the Licensee obtained the Licensed Program as an upgrade to an existing DATATECH software program, DATATECH will provide support services for the Licensed Program for the period specified in the existing software program's license agreement. If the Licensee has already subscribed to a DATATECH Software Support Agreement, DATATECH will provide support services for the Licensed Program for the period specified by the Software Support Agreement. If the Licensee did not obtain the Licensed Program as an update to an existing DATATECH software program, DATATECH will provide technical support for Licensed Program for a period of ninety (90) days from the original date of purchase.

This service is available Monday thru Friday, 8 A.M. to 12 Noon and 1 P.M. to 5:00 P.M., Pacific Time. DATATECH may add additional hours and days to our technical support services at its discretion. Technical support is generally not provided on federal holidays.

Technical support services are available via telephone, fax, and email, and may include: assistance and answers to questions regarding use of the Licensed Program, individual training at our office, and commercially reasonable efforts to solve problem issues. Technical support services do not include data entry services, reconciliation of bank statements, or auditing of bookkeeping records.

DATATECH will also provide technical support services via our newsletter and our web site. Program updates and enhancements may be made available for download from our web site to the Licensee.

DATATECH may also provide technical support services utilizing third party remote control software that operates over dial-up modem connections and/or Internet connections. This support service may require the Licensee to purchase a "host" remote communications software product that is not a part of the Licensed Program.

At the end of the initial ninety (90) days support period, Licensee may subscribe to DATATECH's Software Support Agreement, which continues DATATECH's technical support services described in this section. This agreement is renewable on an annual basis.

8. MISCELLANEOUS

This is the only agreement between DATATECH and Licensee, and it cannot and shall not be modified by purchase orders, advertising, or other representation of anyone, unless written amendment has been signed by one of DATATECH's officers. This License Agreement shall be governed by California law, except as to copyright matters, which are covered by Federal law, and is deemed entered into at Fresno, California, by both parties.
